overcome bullying

Magic tools  
for life Pty Ltd

Helping people create happy and amazing lives!

Dear Principal, councillor's pastors and health and well being officers,

Angels Hope has been given the opportunity to give these resources for free because of the generosity of your local community because they realise that the schools cannot do this alone. We hope each year to give you a presentation that can be delivered to your students that can help create awareness about the damaging effects of bullying. The guide for teens and tweens are suitable for parents to work alongside their child/children and the teachers guide can be done in sections as we have found through first hand experience success stories by using only the can of worms as an example. In the future we will be doing a short film and short messages from the celebrities that can give the students can hear from another voice example Jeff Fenech three times world champion talking about one

punch and anti-violence. In return all we wish is for you to promote our website to give students another avenue to speak up.

Angels Hope has partnered with Magic Tools for Life Pty Ltd. We endorse this product and believe it to be very beneficial in preventing ongoing bullying in our schools and community and fit in with current school curriculum in primary and secondary health and well being strands which the ACARA personally said it is a very good product but they do not endorse any resources.
